Social Service Agency Example

Andy Grogan-Kaylor

### 2020-10-10

Contents

0.1 Social Service Agency

This is an example report using the *simulated* social service agency data.

```
library(readxl)

social_service_agency <- read_excel("social-service-agency.xlsx")
```

0.2 Including Plots

You can also embed plots, for example:

Remember that more ideas for geometries are here: https://agrogan1.github.io/myposts/comparing-program-outcomes-with-ggplot2.html

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
